

KLOVE serves me and my family as the only 'family friendly' radio station in my NC listening area. It is the only station that I am comfortable allowing my children to listen to without supervision. If KLOVE were to not be available, I would be concerned about undue influence on them that I do not wish them associated with. In addition, they will miss out on notification of upcoming local music events in our area that are of interest to families. In addition, I listen to this station as I travel throughout the country on business. I believe that KLOVE is a positive moral influence in my community, and one of the only such media outlets available. I urge you to keep KLOVE rebroadcast available throughout the country.

Regards,
David Cottingham
